

**List of  
articles which have appeared in  
the  
Journal of the  
Historical Society  
of South Australia  
1974-2002**

**Prepared by Brian Samuels**

This index is a consolidation of the 'Subject Index to the Journal of the Historical Society of South Australia No's 1 - 20 (1974 - 1992)' which appeared in the 1993 Journal and its successors for No's 21 - 25 (1998 Journal) and 26 - 30, which will be in the 2003 Journal. In the latter index new headings for Gardens and Forestry were added and hence some associated reindexing of the entire index database was undertaken. The opportunity was taken to reindex a few other entries as well.

This index has certain limitations of design. It uses a limited number of, and in many instances relatively broad, subject headings. It indexes only the main subjects of each article, judged primarily from the title, and does not index the contents. Authors and titles are not separately indexed, but they do comprise separate fields in the index database. Hence author and title indexes could be included in future published indexes if required.

Titles are cited as they appear at the head of each article. The following items are excluded: Presidents' reports on the Society's activities, book reviews (but not review articles) and advertisements.

Within each subject items are arranged alphabetically by author and by title when there is more than one article by the same author. There are two exceptions. Within the subject Biography items are indexed by surname and collective biographies are grouped at the beginning. Within the subject Places general and regional items are found at the beginning with other items arranged by place.

The full index is maintained on an Apple Macintosh computer using Filemaker Pro database software. Anyone wishing to access the database can contact me at the Heritage Branch, Department for Environment and Heritage, GPO Box 1047, Adelaide 5001 or via email to [heritage@saugov.sa.gov.au](mailto:heritage@saugov.sa.gov.au).
